

Apprenticeship

The Apprenticeship Program provides students with the opportunity to learn the aspects of a highly-skilled profession through on-the-job training and related classroom instruction while being sponsored by individual employers. Lane currently serves nine different apprenticeship trades, listed below:

Getting Started...

1. Visit www.lanecc.edu/apprenticeship to obtain program details.
2. Contact the committee coordinator listed below for the trade you are interested in and check for current openings.

Inside Electricians	Randall Tyle: 541.344.6473
