S10: Closing

Click to review your responses to the survey. You will not be able to make changes to the review form, but you will be able to go back in the survey and revise responses once you close the review page. You can print the review copy by using your browsers "Print" function. You will also have a chance to print your completed report after report submission.

Please add any comments here for the Commission office for the 2012 Annual Report.

As with many daa reports, the devil is in the details. We had two questions regarding the data we are submitting. 1. We assumed the data set we are to report should be Fall 2011, comparable to data from past years, though we didn't find that specified in the instructions as it has been in past years. 2. In reporting enrollment in programs available 50% or more by distance education, we reported data as fractions, with the numerators the subset of unduplicated students in each major who had taken any course online, by interactive video, or telecourse. Since students have the choice of distance Learning or F2F for most (but not all) of our programs, we reported as denominators the total enrollment by declared major in each program it is possible for students to enroll in distance education .
