

Pre-Professional Health

NOTE: All students must meet with your major Academic Advising team at Lane to assure information is accurate and current. Major requirements are different from four-year college to four-year college, and may change every year. Associate degree requirements can also change from year to year. This is a Guide only and is not guaranteed to encompass all major/program requirements - these are obtained through your Lane Academic Advising team.

Admission into a professional health graduate school is competitive and most programs require a bachelor's degree before applying. Students are encouraged to excel in their science sequences as many serve as prerequisites for graduate programs. Transfer institutions require additional upper division coursework to be accepted into any of the professional health graduate programs and may change prerequisites from year-to-year. Any student interested in transfer must accept responsibility to work very closely with the Lane Academic Advising team for the major/program and be aware of changes in program prerequisites at potential transfer institutions.

Please note Science majors will need to be at a MTH 111 level before starting most science sequences

Commonly selected undergraduate majors:

Pre-Chiropractic: Biology, General Science, Human Physiology

Pre-Dentistry: Biology, Biochemistry, Human Physiology

Pre-Medicine: Biology, Biochemistry/Biophysics, Human Physiology, Microbiology

Pre-Occupational Therapy: Human Physiology, Psychology

Pre-Optometry: Biology, General Science, Human Physiology

Pre-Pharmacy: Biology, General Science

Pre-Physical Therapy: Biology, General Science, Human Physiology

Pre-Physician's Assistant: Biology, General Science, Human Physiology

Pre-Veterinary Medicine: Animal Science, Biology, General Science

For additional information on specific majors listed above and Pre-Professional Health programs in general, please meet with the Academic Advising team for that area. The commonly selected majors listed above have individual Transfer Guides within this section of the catalog.
