There is one more change we should make... that is ET247 which is called "Linear Circuits 1" should be called "Linear Circuits" since there is no Linear Circuits 2.

Terry

Hi Tracy

Paul needs to send an email to the Curriculum Committee for this change. Just have him send the email to Mary and I and address it to the committee.

thanks

Mel

These are the changes Electronics would like:

ET229/Motors WOULD LIKE ET229/Motors 1

ET241/Electro-Mechanical Troubleshooting WOULD LIKE ET230/Motors 2

ET232/Process Control Systems WOULD LIKE ET235/Programmable Controllers 2 (ET234 is Prog Controllers 1)

What kind of paperwork do we need to make this happen? Is it even possible to change numbers?

Thank you,

Tracy

PS: I bought the shake weights:-) They are still in the box:-) Soon, I tell you!!!
