

Hi Melanie... Would it be possible to add a course name change to the consent agenda for the December meeting" If not, please add to the next meeting.

We would like to change CIS 125SL - Software Tools 1: Introduction to Second Life to CIS 125VW - Software Tools 1: Introduction to Virtual Worlds

We would like the name change because it reflects that we are changing from Second Life to other virtual world software. We also want to make the title more generic to accommodate possible future changes in products used to deliver the curriculum.

Thanks for your help....Larry
