Good Morning Ken, I meet with Mary Brau about the GIST professional technical program yesterday. One easy change is a current class number change. I need to change the number of the GIS 248 [Applications in GIS] to number GIS 260 [Applications in GIS]. This is the capstone class and I need it to have the highest course number.

According to Mary , If you OK this and forward it to Melanie Brown, the change can be submitted.  
Thanks  
Lynn Songer
