

Section 8. Library Impact Statement

In addition to Library computers, students at Lane have access to assistance from reference librarians, a circulating collection of 100K+ items, and consortial lending agreements with 37 other academic libraries in the Orbis Cascade Alliance. Students in HIT courses have access to eight Health & Medicine research databases, including one Spanish language database specifically tailored to the health professions.

The LCC Library participates in the GoogleScholar link program enabling students to link directly from GoogleScholar to items licensed through our databases. Research guides, citation help, and many other services are available through the LCC Library.
