

Section 1. Proposed Course Outline (A general statement of course content that informs class syllabus construction. Once approved, all sections of a given course must include this content, no matter which instructor teaches the course, or the mode of delivery. Divisions must include this new course outline in the Divisional Course Outline binder as required by COPPs.)

Course Number: NRG 182 Full Course Title for print catalog: Commercial HVAC Controls

Abbreviated Course Title for Banner: Commercial HVAC Controls (30 character limit)

Prerequisites: Registration in Energy Management Program

Co-requisites:

Grade Option: ☐ Graded (with P/NP option) ☐ Pass/No Pass only

Number/Type Credits	Term Minimum Contact	Term Maximum Contact	11-Week Term Contact
2 Lecture	20 hours (lecture credits x 10)	24 hours (lecture credits x 12)	22 hours (lecture credits x 11)
<u>2</u> Lec/Lab Lab <u>4</u> Total credits (sum)	40 hours (lec-lab credits x 20) hours (lab credits x 30) Total hours (sum)	48 hours (lec-lab credits x 24) hours (lab credits x 36) 72 Total hours (sum)	44 hours (lec-lab credits x 22) hours (lab credits x 33) 66 Total hours (sum)

Course Description (300 character limit):

Controls perspective on commercial HVAC systems, ranging from older pneumatically controlled systems to newer digitally controlled systems. Comparing the benefits of different mechanical room systems and control systems. Retrofit opportunities and other energy conservation measures.

Course Outcomes and Proficiencies	Assessments Planned	
What will the student <i>know</i> or <i>be able to do</i> at the end of the course?	What evidence will demonstrate that students have achieved course outcomes? (assessment tools may include departmental tests, written products, portfolios, juried performances, quizzes and exams, or alternative assessments such as qualitative studies, capstone projects, external reviewers, etc.)	
What <i>attitudes</i> related to the subject will the student hold?		
Upon successful completion of this course, the student will:	How each outcome will be assessed:	
Define and use appropriate vocabulary specific to commercial HVAC control systems	Quizzes	
Detemine analog control system characteristics	Homework & class exercises	
Determine pneumatic controls digital standards	Homework & class exercises	
Comprehend mechanical room systems	Homework & class exercises	
Comprehend mechanical room systems	Homework & class exercises	
Use critical thinking skills to identify energy conservation measures	Quizzes, homework & class exercises	

What topics will be presented? What are the main activities of the course? What are the central themes? (See sample at http://www.lanecc.edu/cops/format3.htm.) **Topics:** Control of energy flow in commercial buildings Analog controls Pneumatic controls Electric/electronic controls Mechanical room systems Damper and valve actuators Motor VFD controllers Energy conservation measures for HVAC controls **Section 2. Proposal Information Course Developer:** Type of Proposal **Type of Course:** Roger Ebbage New course Lower Division Collegiate (transfer) Currently 199 or 299 Professional/Technical (required or elective) Date: 10-12-2012 Catalog year to take effect: Developmental, numbered below 100 Experimental Course ☐ 199 Special Studies 2012-13 299 Trends Revised course (If increasing credits, use credit change form) Reactivated course with no change Reactivated course with changes **Rationale:** How does this proposal further the goals of the program or department? The class supports multiple energy management program learning goals by informing students of current practices dealing with controlling energy and HVAC in commercial buildings. The class will increase FTE by retaining existing and attracting new students. What assessment evidence supports this proposal? There is strong evidence through labor market research that a significant labor market exists. The research conducted included an internet survey of industry websites who advertise posting for the controls industry. Additional information supporting this proposal came from direct conversations with controls contractors. This option was presented to and approved by the Energy Management program Industry Advisory Committee. How do you know there is a demand for this course?

This will be a required core course for Energy Management Students pursuing the Controls Option

Course Content by Major Topics

Section 3. Curriculum Equity (http://www.lanecc.edu/cops/curric.htm)

To promote an environment where all learners are encouraged to develop their full potential, this course will support Lane's Curriculum Equity policy in the following way(s):

This course will portray women and men from diverse cultural and ethnic backgrounds working in the field of building controls as guest speakers.

Materials which present a significant number of instances of fully integrated human groupings and settings to indicate equal status and non-segregated social relations will be used in this class.

Section 4. For revis	ed courses only: PREVIOU	JS Catalog/Course Informa	ition:	
Course Number: Course Title in Banner: (30 characters maximum)

Section 5. Support Courses (New Professional/Technical course proposals must complete.)

Professional/Technical courses are tracked within programs for purposes of Carl Perkins funding and budgetary planning. Indicate all degree or certificate programs for which this course will be required.

Program	Division
Energy Management Technician Program	Science

Section 6. Overlap Courses (New course proposals must complete.)

While overlap of course materials is not necessarily a flaw, duplication of course materials may lead to inefficient use of college resources. If there is overlap, the faculty of overlapping courses must agree on the extent of overlap and attach a rationale explaining its necessity.

Indicate all departments/courses that this course may overlap. Division Dean of existing course enters one of two options at right. Note: N/A is not an option.

Options:

- 1. No overlap.
- 2. Approved: overlap is acceptable. Rationale attached.
- 3. Disapproved: reasons attached.

Division	Course Number / Title	% Overlap	Option	Division Dean of existing course (Signature required for all options)	Date
			1		

Section 7. Qualification to fulfill degree requirements http://www.lanecc.edu/currsched/index.html and send to Mary Brau Form(s) applying for the following degree requirement sta when forms have been completed and attached.)	for the Degree Requirements Review Committee):
AAOT, ASOT-Bus, OTM:	AAOT:
Arts & Letters	Cultural Literacy Option
Social Sciences	AAS, 1-year and 2-year certificates:
Science /Computer Science	Human Relations
☐ Mathematics	

Section 8. Library Impact Statement

Under accreditation standards, Library consultation is essential for new programs, new courses and for substantively revised courses when the revisions entail any change in library use.

What assignments will require the use of library and information resources?

Reference materials for this course will be accessed through internet research

Each academic area has a Liaison Librarian (http://www.lanecc.edu/library/services/liaison.htm). Contact the designated librarian to discuss the library needs of your course. Please allow the librarian at least one week to assess library resources. To be completed by Liaison Librarian: Library resources are adequate to support this proposal. Additional resources are needed but can be obtained from current funds. Significant additional Library funds/resources are required to support this proposal. Liaison Librarian Date Section 9. Divisional Approval (To be completed by Division Chair and Administrative Assistant) Human, Physical, and Financial Resources: Fees: Additional instructional costs (staff, materials, services or We have completed fee rationale and fee request facilities) will be incurred to offer this course. Source of forms to be submitted to ASA upon course approval, in compliance with the COPPs procedure, "Fees: Special" funding: No special fees will be required for this course. No additional instructional resources (staff, materials, services or facilities) are needed to offer this course. **Divisional Recommendation:** Explain: The Division Chair and Administrative Assistant have reviewed this course proposal and kept a copy for divisional **Required Certifications:** files. We have developed minimum course certification Faculty review of this course was completed within the standards according to the COPPs procedure "Instructor Qualifications: Credit," to be filed with ASA upon course division on (date). approval. We have completed faculty certification form(s) for Pass Do Not Pass faculty qualified to teach this course, to be filed with ASA and Human Resources upon course approval. Administrative Assistant/Coordinator Date Academic Dean Date Section 10. College Approval Curriculum Committee Chair Date **Executive Dean for Academic Affairs** Date Curriculum Approval Committee hearing: Date Chief Academic Officer Date
