☐ Experimental Course

☐ 199 Special Studies

☐ 299 Trends

☐ Revised course (If increasing credits, use credit change form)

☐ Reactivated course with no change

☐ Reactivated course with changes

Type of Course:

☐ Lower Division Collegiate (transfer)

☐ Professional/Technical (required or elective)

☒ Developmental, numbered below 100

Rationale:

How does this proposal further the goals of the program or department?

This course is part of a comprehensive plan to pilot innovations in developmental education at Lane. This course would be the first in a two-term writing sequence at the developmental level that would provide an accelerated alternative to the current three-term sequence.

What assessment evidence supports this proposal?

Although there is a dearth of longitudinal data that tracks the success of developmental students at Lane, preliminary analysis at Lane and nationwide suggests that students can benefit from a shorter,

accelerated developmental writing sequence. Further, while success rates in individual ALS writing courses are high relative to other Lane courses and developmental courses at other colleges, data suggest that many students do not complete their program or certificate goals due to the number of courses currently required at the developmental level.

How do you know there is a demand for this course?

The number of students placing into developmental-level courses at Lane (and nationwide) has increased dramatically – student FTE in ALS courses has increased 76% in two years. Nationwide, over 55% of students place into developmental-level courses. In addition, current research suggests that students are more likely to progress and complete certificate and degree programs if developmental coursework is accelerated and completed over a shorter period of time.

Section 3. Curriculum Equity (<http://www.lanecc.edu/cops/curric.htm>)

To promote an environment where all learners are encouraged to develop their full potential, this course will support Lane's Curriculum Equity policy in the following way(s):

As in all Academic Learning Skills courses, we will promote an atmosphere of support in the classroom, in which all students are appreciated and honored.

An integral part of the peer editing process will be to facilitate effective and respectful communication between and among students from diverse backgrounds.

ALS is committed to offering anti-bias curricula infused with multicultural perspectives and aligned with the College's core values.

In addition, we strive to design curricula and instructional materials based on the principles of universal access.

Section 5. Support Courses (New Professional/Technical course proposals must complete.)

Professional/Technical courses are tracked within programs for purposes of Carl Perkins funding and budgetary planning. Indicate all degree or certificate programs for which this course will be required.

Program	Division

Section 6. Overlap Courses (New course proposals must complete.)

While overlap of course materials is not necessarily a flaw, duplication of course materials may lead to inefficient use of college resources. If there is overlap, the faculty of overlapping courses must agree on the extent of overlap and attach a rationale explaining its necessity.

Indicate all departments/courses that this course may overlap. Division Dean of existing course enters one of two options at right. Note: N/A is not an option.

Options:

1. No overlap.
2. Approved: overlap is acceptable. Rationale attached.
3. Disapproved: reasons attached.

Each academic area has a Liaison Librarian (<http://www.lanecc.edu/library/services/liaison.htm>). Contact the designated librarian to discuss the library needs of your course. Please allow the librarian at least one week to assess library resources.

To be completed by Liaison Librarian:

- ☐ Library resources are adequate to support this proposal.
- ☐ Additional resources are needed but can be obtained from current funds.
