<p><b>Professional Development:</b>  <b>Change Management</b>  <b>Presented by Roberta Stitt, 2011</b>  <b>Aspiring Leader graduate and</b>  <b>Masters candidate</b></p> <p>Change – <i>not the change in your pocket!</i> Organizational Change and Development (OCD) or Change Management to some. We tend to obsess about the subject of change. We are either complacent or we just don't like it. Let's face it, change is hard! The good thing about OCD is that how you feel about it can change. We will look at some ways to make the road a bit smoother. It can be less of a burden on those that are trying to implement a change. And less of a challenge for those that need to do the work and really get things moving.</p> <p><b>Location: CML Meeting Room 214</b></p>	<p><b>Institutional Score Card:</b>  <b>Achieving the Dream</b>  <b>Hosted by Ben Hill, Faculty Instructor, Mathematics</b></p> <p>How will Lane assess whether we are fulfilling our mission? Preview the institutional score card under development for our accreditation self-study and examine new data on student progression and success.</p> <p><b>Location: Building 19/Smart Classroom 243</b></p>	
	<p><b>Flippin' Out!</b>  <b>Hosted by Brad Hinson, Division Dean, Academic Technology</b></p> <p>Curate, create and flip your online curriculum. Join us for an exploration of "flipped classroom" ideas, effective practices in use at other institutions, and demos of the latest tech tools of the trade - including but not limited to Pinterest, CK-12, and TED-Ed. <b>To fully appreciate the "flipped classroom" experience we ask that you do your *homework* ahead of time by exploring this short interactive video: <a href="http://bit.ly/IrKIsR">http://bit.ly/IrKIsR</a>.</b></p> <p><b>Location: Building 19/Smart Classroom 245</b></p>	
	<p><b>21st-Century Core Learning Outcomes:</b>  <b>Think. Engage. Create. Communicate. Apply.</b></p> <p>What should our graduates know and be able to do to function in the world they are entering - and how do we confirm that this is what they are learning?</p> <p><b>Hosted by Lane Assessment Team</b>  <b>Location: CML Meeting Room 220</b></p>	

## **Facilities/Bond Update and Recycling Program Review/Tour**

**Hosted by Dave Willis and Mike Sims, Facilities, Management & Planning**

Facilities Management and Planning is working on efficiencies and supporting the college mission in new ways. Our work order system has gone paperless, our new buildings are using over 40% less energy than traditional code compliant buildings, and we are incorporating student learning opportunities into many different areas. Facilities Director, Dave Willis, will give a brief overview of some of the exciting and innovative new practices and projects. There will be time for Q&A. Next, Recycling Coordinator, Mike Sims, will present about the pioneering work of the new Recycling Education Center. The Center is used as a learning laboratory for over 15 Resource Conservation Manager and Sustainability Coordinator students each year while implementing innovative recycling practices and projects. The session will conclude with a tour of the Recycling Education Center.

**Location: Building 10/Room 105 (This is the open gallery area and amphitheatre, at the west end of Building 10, which is nearest Building 11.)**

## **Diversity**

**Moderated by Al King, Co-operative Education**

### **Voices from Within: Lane Community College LGBTQ Staff and Students Tell Their Stories (Panel)**

Continuing to build on "Storytelling Model for Social Justice through the Arts" recently introduced at the Diversity Strategic Direction Conference, a panel of Lane LGBTQ staff and students will share their "con-cealed, resistant and transforming/emerging" stories and discuss ways to assist Lane in fulfilling its Diversity Core Value and Strategic Direction to foster a respectful, welcoming, and inclusive learning and working environment. Please join us to hear these student and staff inspirational stories.

**Location: CML Smart Classroom 203**

**11:45-12:45 pm**

### **Time for Lunch! Hosted Buffet Lunch with an Indian theme**

Prepared by professional Chefs Tim Hill and Adam Hammel and their trained staff that showcases local and seasonal ingredients incorporated into the menu.

**Location: Cafeteria**

1:00 – 1:45 pm	BREAK OUT SESSIONS II	
CLASSIFIED WORK GROUP	FACULTY WORK GROUP	MANAGEMENT WORK GROUP
<p><b>Budget 101: Back to the Basics</b>  <b>Hosted by Budget Office and College Finance staff, Tasha Drake and Cathy Nolan</b>            College Finance and the Budget Office are offering a brief, overview training for administrative support staff on how to monitor, manage, and understand your budget. Topics include ExpressLane/Banner reports and queries, ICP, budget transfers vs. journal entries, and others.  <b>Location: Building 19/Smart Classroom 245</b></p>		
<p><b>Wiki Up!</b>  <b>Hosted and taught by Michael Levick, Academic Technology Support Coordinator, and CPDT Membership Coordinator</b>            A Wiki is the simplest online database that could possibly work, as a piece of server software that allows users to freely create and edit Web page content using any Web browser. Wiki supports hyperlinks and has simple text syntax for creating new pages and crosslinks between internal pages on the fly. Wiki is unusual among group communication mechanisms in that it allows the organizational of contributions to be edited in addition to the content itself. Like many simple concepts, “open editing” has some profound and subtle effects on Wiki usage. Allowing everyday users to create and edit any page in a Web site is exciting in that it encourages democratic use of the Web and promotes content composition by nontechnical users. Join Michael to learn how to Wiki Up and begin to take advantage of this powerful tool! <i>(Historical Note: The first ever Wiki site was created for the Portland Pattern Repository in 1995. That site now hosts tens of thousands of pages.)</i>  <b>Location: Building 2/Classroom 211</b></p>		
<p><b>Thriving Beyond Sustainability – Planning for Lane’s Future</b>  <b>Hosted by Claudia Owen, Science, and Margaret Robertson, Advanced Technology</b>            Lane currently has a recycling rate of 55%, but how do we get to 100%? Thousands of students are taking sustainability-focused classes each year, but how do we ensure that no student leaves Lane without an understanding of sustainable ecological, social, and economic systems, concern for environmental justice, and the competence to act on such knowledge? Also, while Lane is transforming into a thriving model of sustainability, how can we reach out to our community and work with our city and region on making similar transitions? Please join moderators, Claudia Owen and Margaret Robertson, to help create a plan that will present a vision of a truly sustainable and thriving organization and a path for achieving that vision. This session will particularly focus on the community outreach and social equity elements of the plan. ### Everything You Ever Wanted to Know About Financial Aid . . . *but were afraid to ask!*

Financial aid can be a mystifying topic for students, staff, and faculty alike. Please join Lane's new financial aid director for a one-hour session to help demystify the regulations, processes, and timelines that impact over 75% of Lane students. This session will present a broad overview of the financial aid application (FAFSA), Satisfactory Academic Progress (SAP) rules (including the 'Maximum Attempted Credit Limit'), types of aid offered, loan limits, Pell Grant limits, debt management strategies, and the upcoming changes regarding diploma/GED requirements. A Q&A session will follow the presentation.

**Hosted and taught by Helen Faith, Student Enrollment Services & Financial Aid**

**Location: Building 19/Smart Classroom 234**

### Grant/Program Design Workshop

This session is designed to provide you with knowledge on how to effectively and successfully design a grant-funded program.

**Student Success Begins Here . . . and with us!**

A new energy is building at Lane focused on the idea that "Student Success Starts Here!" The Student Affairs' Division invites all Lane colleagues from all departments who are the everyday heroes for guiding students along their educational paths at Lane to meet their goals and dreams to come to connect with each other, and to celebrate what we are doing to make a difference for our students. We'll also work on generating ideas on how we can work even more collaboratively together and to break down barriers for students on their way to being successful. Light refreshments will be served, and prizes will be available, too!

**Hosted by Lane's Student Affairs Division (Helen Garrett, coordinator) Location: CML Meeting Room 104**
