

# **FAST LANE TO SUCCESS**

**Course Feedback**

## What Worked Well?

1. I think even though I really didn't want to or better put excited about Journaling it really helped me through some tough times. It also helped that I know that the person who was going to read them was not judgmental.
2. It's hard to name just one thing. The 'one course' book is great! And I liked how Effective Learning was so well tied in. Goals, small & long term & time management worked very well!
3. The support of this class has been wonderful. I have learned great things and how to put them in to practice. I found out a lot about myself as well.
4. I loved all of it! I loved the textbooks!
5. I don't have any suggestions to make. I liked how easy it was to pass though. Keep doing what you're doing. I think you're an awesome teacher.
6. Pretty much everything!
7. Getting into groups and studying together on assignments and tests.
8. I came into this class skeptical. Now I come out feeling like I've gained a whole world of knowledge and met some truly wonderful people.
9. The linked classes have helped me not only be a better student. But it has improved my confidence in not only college but also life. I feel lucky to have been able to take these classes.
10. This whole course worked really well for me. I feel like this class is a gift for me. I got almost everything that I need. Personally I came to college to change my world and I forgot about myself after coming to this class and doing all the things I

learned about myself I became my self. That is the one I needed. Now I am ready to go.

11. The splitting up of the test in to smaller blocks.
12. Interlinking the info between classes helped my ability to retain it.
13. I really bonded with the three other people at my table and when I wasn't excited about coming, I often would think of my classmates and that helped to motivate me.
14. What worked well first of and foremost was having two teachers who are compassionate. Opening themselves opened me as a whole for college.
15. A polite effective class where I learned how to be successful in life as a person. To learn I can accomplish what I want as long as I dedicate myself.
16. What worked well was the book to use as reference, also the quizzes to make sure we were reading the chapters.
17. I think it all went well, actually better than well-This was an awesome experience! Everyone should be required to do something like this.

19. I really liked this class. I really liked how the tests are only out of 100 points so there is always a chance for extra credit.
20. Having both classes together was great. The material run together a little but they both complimented each other. I would suggest this. Everything I have learned has made me a better student & person. It gives you a sense of what will make you successful, my time management and better ways to learn.
21. The way the classes supported each other. We received a lot of information& very little of it overlapped.
22. I really loved this class. It taught me so much about myself. I have recommended this class to a lot of people because it really goes deep and helps a person understand what it takes to be a good student. The most important thing is that it shows me that we've got to take responsibility for ourselves before we begin to understand what it takes to be successful. If I'm positive and force myself to think positively during the negative times. I'll break through a lot of barriers that can stop me from reaching my goals and dreams.
23. I think that what helped me was, Time management and also positive attitude and also creator actions and language and also the test taking skills work.
24. I came into this class skeptical, now I come out feeling like I've gained a whole
