

Social Perspective

Lane Increases State Income

- The activities of Lane 's 2010-11 student body will generate about \$46 million in labor income in the state economy each year.
- Once Lane 's current students become active in the workforce, they will promote business output, raise consumer spending, and increase property income in the state. All of this contributes an additional \$23.9 million in taxable income each year.
- Altogether, higher student income and associated effects on business productivity add \$70 million in income annually to the state economy.

Lane Reduces Social Costs

- Education is statistically correlated with improved lifestyle behaviors, including reduced incidences of absenteeism, alcohol abuse, and smoking, lower probability of committing crime, and fewer welfare and unemployment claims.

Annual Benefits to the Oregon Public Due to Lane (\$ Millions)

- It is estimated that Lane 's 2010-11 student population will generate social savings to the Oregon public equal to \$3.4 million a year.
- These savings accrue to all state and local residents—students, homeowners, businesses, and taxpayers.
