We pursue and secure constitutional protection of environmental rights in states across the nation. We ensure that governments across the nation at the local and state level honor the rights of all people to pure water, clean air and healthy environments in the laws they enact, the decisions they make, and the actions they pursue. We ensure that the Pennsylvania Environmental Rights Amendment is further strengthened in the wake of the Pennsylvania Supreme Court Decision.

**Article 1, Section 27 of the Pennsylvania Constitution promises:**  
*"A right to clean air, pure water, and to the preservation of the natural, scenic, historic and esthetic values of the environment. Pennsylvania's public natural resources are the common property of all the people, including generations yet to come. As trustee of these resources, the Commonwealth shall conserve and maintain them for the benefit of all the people."*
