

Community College Survey of Student Engagement
2008 Benchmark Summary Table - All Students
Lane Community College, Oregon Consortium

All Students				
Benchmark	Your College	Comparison Group Statistics		
			Consortium	2008 CCSSE Cohort
Active and Collaborative Learning	53.5	Benchmark Score	51.6	50.0
		Score Difference	1.9	3.5
Student Effort	50.7	Benchmark Score	51.9	50.0
		Score Difference	-1.2	0.7
Academic Challenge	50.0	Benchmark Score	51.0	50.0
		Score Difference	-1.0	0.0
Student-Faculty Interaction	53.0	Benchmark Score	52.6	50.0
		Score Difference	0.4	3.0
Support for Learners	49.8	Benchmark Score	49.4	50.0
		Score Difference	0.4	-0.2
		Number of Colleges	14	585

Benchmark Score: Each benchmark score was computed by averaging the scores on survey items that comprise that benchmark. To compensate for disproportionately large numbers of full-time students in the sample, all means used in the creation of the benchmarks are weighted by full- and part-time status. Benchmark scores are standardized so that the weighted mean across all students is 50 and the standard deviation across all participating students is 25. Institutions' benchmark scores are computed by taking the weighted average of their students' standardized scores.

Score Difference: The result of subtracting the comparison group score (same size colleges or 2008 CCSSE Cohort) from your college's score on each benchmark.

Active and Collaborative Learning
Bar Charts and Benchmark Item Composition - All Students

Description - Students learn more when they are actively involved in their education and have opportunities to think about and apply what they are learning in different settings. Through collaborating with others to solve problems or master challenging content, students develop valuable skills that prepare them to deal with the kinds of situations and problems they will encounter in the workplace, the community, and their personal lives.

Benchmark Score: Each benchmark score was computed by averaging the scores on survey items that comprise that benchmark. To compensate for disproportionately large numbers of full-time students in the sample, all means used in the creation of the benchmarks are weighted by full- and part-time status. Benchmark scores are standardized so that the weighted mean across all students is 50 and the standard deviation across all participating students is 25. Institutions' benchmark scores are computed by taking the weighted average of their students' standardized scores.

Score Difference: The result of subtracting the comparison group score (same size colleges or 2008 CCSSE Cohort) from your college's score on each benchmark.

Active and Collaborative Learning
Bar Charts and Benchmark Item Composition - 0 to 29 Credits Students

Description - Students learn more when they are actively involved in their education and have opportunities to think about and apply what they are learning in different settings. Through collaborating with others to solve problems or master challenging content, students develop valuable skills that prepare them to deal with the kinds of situations and problems they will encounter in the workplace, the community, and their personal lives.

Academic Challenge
Bar Charts and Benchmark Item Composition - 0 to 29 Credits Students

Description - Challenging intellectual and creative work is central to student learning and collegiate quality. Ten survey items address the nature and amount of assigned academic work, the complexity of cognitive tasks presented to students, and the standards faculty members use to evaluate student performance.

Benchmark Scores			
	Lane Community College	Consortium	2008 CCSSE Cohort

9a. Encouraging you to spend significant amounts of time studying	2.84	2.90		2.91	

[NOTE: Directional arrows in charts highlight those items where your college falls notably above or below the mean of your comparison group. The items listed are significant at $p < .001$ with an effect size greater than or equal to .2.]

Student-Faculty Interaction Bar Charts and Benchmark Item Composition - 0 to 29 Credits Students

Description - In general, the more contact students have with their teachers, the more likely they are to learn effectively and persist toward achievement of their educational goals. Through such interactions, faculty members become role models, mentors, and guides for continuous, lifelong learning.
