

Species List for Lane Community College Forest Land Reserve Compiled by Ron Hammill -- April - July, 1996
--

Aceraceae -	Acer macrophyllum	Ericaceae -	Arbutus menziesii Pyrola picta
Anacardiaceae -	Toxicodendron diversilobum	Fagaceae -	Quercus garryana Quercus kelloggii
Apiaceae -	Anthriscua scandicina Daucus carota Ligusticum apiifolium Lomatium nudicale Lomatium utriculatum Oanthe sarmentosa Osmorhiza chilensis Perideridia oregana Sanicula bipinnatifida Sanicula crassicaulis Sanicula tripartida	Fabaceae -	Cytisus scoparius Lathyrus aphaca Lathyrus sphaericus Lotus pinnatus Lotus purshianus Lupinus polyphyllus Lupinus rivularis Trifolium bifidum Trifolium dubium Trifolium eriocephylum Trifolium pratense Trifolium repens Trifolium variegatum Trifolium wormskjoldii Vicia americana Vicia cracca Vicia gigantea Vicia tetrasperma
Apocynaceae -	Apocynum androsaemifolium	Fumariaceae -	Dicentra formosa
Asteraceae -	Achillea millefolium Adenocaulon bicolor Anaphalis margaritacea Aster radulina Aster vialis Bellis perennis Chrysanthemum leucanthemum Cirsium arvense Cirsium hallii Cirsium vulgare Eriophyllum lanatum Grindelia integrifolia Hypochaeris radicata Lactuca muralis Leontodon nidicaulis Microceris laciniata Madia elegans Madia glomerata Madia sativa Senecio jacobea Senecio vulgaris Taraxicum officinale	Gentianaceae -	Centaurium umbellulatum
Betulaceae -	Alnus rubra Corylus cornuta	Geraniaceae -	Geranium dissectum Geranium molle Geranium oreganum Geranium robertianum
Berberidaceae -	Berberis aquifolium	Grossulariaceae -	Ribes sanguinum
Boraginaceae -	Cynoglossum grande Myosotis discolor	Hydrophyllaceae -	Nemophylla menziesii Nemophylla parviflora
Brassicaceae -	Cardamomie nutallii Cardamomie oliosperma	Hypericaceae -	Hypericum perforatum
Campanulaceae -	Campanula prenanthoides	Iridaceae -	Iris tenax Sisyrinchium angustifolium
Caprifoliaceae -	Lonicera ciliosa Lonicera hispidula Symphoricarpos albus Symphoricarpos mollis	Juncaceae -	Juncus bolanderi Juncus bufonius Juncus effusus Juncus patens Juncus oxymers Juncus tenuis
Caryophyllaceae-	Cerastium glomeratum Dianthus armeria Moenchia erecta Stellaria calycantha Stellaria media	Liliaceae -	Allium acuminatum Brodiaea congesta Brodiaea coronaria Calochortus tolmiei Camassia quamash Disporum hookeri Disporum smithii Erythronium oregonium Smilacina racemosa Smilacina stellata Trillium ovatum Zygadenus venenosus
Cyperaceae -	Carex densa Carex deweyana Carex hendersonii Carex leporina Carex obnupta Carex unilateralis	Lamiaceae -	Mellisa officinalis Mentha pulegium Prunella vulgaris Saturea douglasii Stachys mexicana
Dipsacaceae -	Dipsacus sylvestris	Linaceae -	Linum angustifolium

Malvaceae -	Sidalsea campestris Sidalsea virgata
Oleaceae -	Fraxinus laticifolia
Onagraceae -	Boisduvalia densiflora Epilobium minutum
Orchidaceae -	Calypso bulbosa Corollorhiza maculata Goodyera oblongifolia Habenaria unalascensis Spiranthes romanzoffiana
Oxalidaceae -	Oxalis oregana Oxalis suksdorfii
Philadelphaceae -	Philadelphus lewisii Whipplea modesta
Pinaceae -	Pinus ponderosa Pseudotsuga menziesii
Poaceae -	Agrostis tenuis Alopecurus pratensis Anthoxanthum odoratum Briza minor Bromus mollis Bromus sitchensis Bromus vulgaris Cynosurus cristatus Cynosurus echinatus Dactylus glomerata Danthonia californica Deschampsia cespitosa Deschampsia elongata Elymus glaucus Festuca arundinacea Festuca californica Festuca occidentalis Holcus lanatus Hordeum brachyanthrum Melica subulata Melica hartfordii Poa pratensis
Plantaginaceae -	Plantago lanceolata
Polemoniaceae -	Microsteris gracilis Navarettia intertexta
Polygonaceae -	Rumex acetocella Rumex crispus
Polypodiaceae -	Athyrium filix-femina Polypodium glycyrrhiza Polystichum munitum Pteridium aquilinum
Portulacaceae -	Claytonia sibirica Montia parviflora Montia perfoliata
Primulaceae -	Trientalis laticifolia Dodecatheon hendersonii

Additional contributors: Gail Baker, Bruce Newhouse, Kathy Pendergrass, John Keonig, Charlene Simpson

LCCPLS.DOC

From Bruce Newhouse 5/3/97 Here's a few plants that I found on my original 1996 list that aren't on the latest version. They must have slipped through the cracks. I think a couple were seen again on this year's trip.

Cystopteris fragilis
 Dryopteris arguta
 Dryopteris expansa
 Torilis arvensis
 Aster hallii
 Arbutus menziesii
 Vancouveria hexandra
 Lupinus bicolor
 Rupertia physodes
 Vicia disperma
 Vicia sativa
 Rumex salicifolius
 Montia fontana
 Ranunculus repens
 Prunus avium
 Potentilla glandulosa
 Pyrus sp.
 Rosa nootkana
 Rubus parviflorus
 Salix scouleriana
 Lithophragma parviflora
 Triphysaria pusilla
 Veronica arvensis
 Veronica scutellata
 Comandra umbellata (add Santalaceae)
 Luzula campestris
 Aira caryophylla
 Phalaris arundinacea
 Typha latifolia (add Typhaceae)
 Ilex aquifolium (hmmmm...what's the family?)

Other notes:

Add var. californica to Corylus cornuta
 Add var. lanceolata to Prunella vulgaris
 Switch Rubus laciniatus and leucodermis order
 Heiko's last name is Koester, I think.

It's kinda late, pardon my typos!

Thanks,

Bruce

Ranunculaceae - Actea rubra
 Aquilegia formosa
 Cimicifuga elata
 Delphinium menziesii
 Ranunculis aquatilis
 Ranunculis occidentalis
 Ranunculis orthorynchus
 Ranunculis uncinatus

Rosaceae - Amelanchier alnifolia
 Crataegus douglasii
 Fragaria vesca
 Fragaria virginiana
 Geum macrophyllum
 Holodiscus discolor
 Oemleria cerasiformis
 Potentilla gracilis
 Pyrus communis

Rosa eglanteria
 Rosa gymnocarpa
 Rubus discolor
 Rubus leucodermis
 Rubus laciniatus

Rhamnaceae - Rhamnus pershiana

Salicaceae - Populus trichocarpa
 var. balsamifera

Saxifragaceae - Saxifraga oregana
 Tellima grandiflora
 Tolmiea menziesii

Scrophulariaceae - Collinsia parviflora
 Mimulus dentatus
 Mimulus guttatus
 Orthocarpus hispidus
 Parentuccellia viscosa
 Tonella tenella
 Veronica americana

Rubiaceae - Galium aperine
 Galium trifidum
 Galium triflorum
 Shehardia arvense

Valerianaceae - Plectritis congesta
